

bitSet.c

```
graph LR; bitSet.c --> errno.h; bitSet.c --> bitSet.h; bitSet.h --> stdio.h; bitSet.h --> stdlib.h; bitSet.h --> string.h
```

A dependency graph showing the relationships between source files and header files. The root node is 'bitSet.c', which is a solid black rectangle with white text. It has two outgoing blue arrows: one to 'errno.h' and one to 'bitSet.h'. 'bitSet.h' is a white rectangle with a black border and black text. It has three outgoing blue arrows: one to 'stdio.h', one to 'stdlib.h', and one to 'string.h'. All other nodes ('errno.h', 'stdio.h', 'stdlib.h', 'string.h') are white rectangles with gray borders and black text.

errno.h

stdio.h

bitSet.h

stdlib.h

string.h
