

Alessandro Rossini

Senior Information Technology Advisor, Researcher, Ph.D.

Oslo, Norway ✉ me@alessandrorossini.org 🏠 alessandrorossini.org

Alessandro Rossini is a senior information technology advisor. He is advising customers on planning and designing the cloud solutions that best fit their requirements, with particular emphasis on modernisation and innovation.

During recent years, Alessandro has conducted extensive research and development on cloud computing and served as a member of the technical committee of the OASIS TOSCA standard. In his position at EVRY, he is transferring these research results to the industry in order to offer customers a competitive advantage.

Alessandro holds a Ph.D. degree in informatics from the University of Bergen, Norway, and an M.Sc. degree in computer science from the University of L'Aquila, Italy. He has lived in three countries and speaks English, Norwegian, Italian, and Spanish. His colleagues describe him as detail-oriented, organised, and goal-oriented.

Experience

Senior Cloud Advisor, EVRY Cloud Services, Oslo, Norway 2017–
Advising customers on planning and designing the cloud solutions that best fit their requirements, with particular emphasis on modernisation and innovation. Subject matter expert in large bids and projects with third-party vendors.

Research Scientist, Dep. of Software and Service Innovation, SINTEF, Oslo, Norway 2012–2017
Research on model-driven engineering and cloud computing. Development of **CAMEL**, a domain-specific modelling language along with a models@run-time environment for specifying provisioning, deployment, monitoring, and orchestration of cross-cloud applications at design-time and their enactment at run-time. Development of mechanisms for failure analysis and failure prevention and recovery of cloud applications. Internal project manager and work package leader in the EU-funded projects **PaaSage**, **Broker@Cloud**, and **ARCADIA**, and the SINTEF-funded project **STWT** (see [Projects](#) below). Technical committee member of the OASIS Topology and Orchestration Specification for Cloud Applications (**TOSCA**) and co-chair of the TOSCA Instance Model Ad Hoc group (see [Management](#) below). Organising and program committee member in international conferences and workshops (see [Organisation](#) below). Supervision of students in the context of Master thesis and internship (see [Supervision](#) below).

Part-time Lecturer, Dep. of Electrical and Electronic Eng., Bergen University College, Norway 2012
Teaching of the Bachelor course Industrial Software Engineering (see [Teaching](#) below).

Guest Researcher, Dep. of Computer Science, Universidad Autónoma de Madrid, Spain 2011
Research on multi-level modelling.

Research Fellow, Dep. of Informatics, University of Bergen, Norway 2008–2011
75% research on formal aspects of model-driven engineering. Development of **DPF**, a diagrammatic specification framework founded on category theory and graph transformation. 25% teaching in the Bachelor courses Program Development Methodologies and Software Engineering, and in the Master course Software Security (see [Teaching](#) below). Chair of the PhD Panel of the Faculty of Mathematics and Natural Sciences. Web Editor and Council Member of the Department of Informatics (see [Management](#) below).

Software Engineer, Integrator, Bergen, Norway 2007
Management, analysis, design and system administration of the project AlarmCenter, a real-time system for managing prison facilities, connecting different subsystems like alarms, pagers, intercoms, telephones, etc. Work based on Unified Process, UML, .NET platform and Citrix XenServer.

Software Engineer, ZeroNotice, L'Aquila, Italy 2005–2007
Management, analysis, design, implementation and system administration of the project **ZNF**, an open source framework for building enterprise web applications. Work based on Unified Process, UML, Apache, PHP5, MySQL, XSLT, XHTML, CSS and JavaScript. Management, analysis, design, implementation and system administration of several web applications based on ZNF.

Software Engineer (Intern), IgTechnology (now Indra), Roma, Italy 2005
Analysis, design, implementation and system administration of the project *Gestione Servizi Interni* (Internal Services Manager), the enterprise resource planning system of the company. Work based on Unified Process, UML, J2EE platform, Apache Struts framework, Oracle Kodo JPA/JDO, XHTML, CSS and JavaScript.

Part-time Trainer, Training agency Assodonna, Pescara, Italy 2004–2005
Teaching of the European Computer Driving Licence (ECDL)-like courses Computer Usage, File Management, Word Processing, Spreadsheets and Databases (see [Teaching](#) below).

Projects

ARCADIA , a framework for developing highly distributed applications Funded by the European Commission's H2020 Programme. Leader of the Task on Context Models, Internal Project Manager at SINTEF.	2014–2016
PaaSage , a model-based framework for specifying and executing cross-cloud applications Funded by the European Commission's 7 th Framework Programme. Rated Excellent. Leader of the Work Package on Languages, Internal Project Manager at SINTEF.	2012–2016
Broker@Cloud , a cloud brokerage framework for quality assurance and optimisation Funded by the European Commission's 7 th Framework Programme. Leader of Task on Cloud Service Failure Prevention and Recovery, Internal Project Manager at SINTEF.	2012–2016
STWT , a framework for specifying simulators for systems of partial differential equations Funded by SINTEF. Researcher.	2013–2014
DPF , a diagrammatic specification framework founded on category theory Funded by the University of Bergen and the Bergen University College. Researcher, Quality Assurance Manager.	2008–2012
ZNF , an open source framework for developing enterprise web applications Self-funded. Project Manager, Chief Architect.	2005–2007

Management

Co-Chair , Instance Model Ad Hoc group, OASIS TOSCA standard	2015–2017
Technical Committee Member , OASIS TOSCA standard	2014–2017
Chair , PhD Panel, Fac. of Mathematics and Natural Sciences, University of Bergen, Norway	2010–2011
Web Editor , Dep. of Informatics, University of Bergen, Norway	2009–2010
Council Member , Dep. of Informatics, University of Bergen, Norway	2009–2010
Founding Member , OpenLUG Linux User Group of L'Aquila, Italy	2001–2007

Organisation

Organising Committee Member: **FM 2015 Doctoral Symposium**, **CSB 2014**, **NordiCloud 2013**

Program Committee Member: **CloudWays 2017**, **CF 2016**, **MULTI 2016**, **MMHS 2016**, **PROCON 2016**, **ESOC 2016**, **MULTI 2015**, **MMHS 2015**, **MULTI 2014**, **MMHS 2014**, **CSB 2013**, **SLE 2012**

Reviewer: **CAEE**, **SoSyM**, **Computing**, **NIK 2013**, **MODELS 2013**, **JSME**, **MODELS 2012**, **ECMFA 2012**, **AGTIVE 2011**, **ICMT 2011**

Education

Philosophiae Doctor (Ph.D.) , Dep. of Informatics, University of Bergen, Norway Subject of the dissertation: Diagram Predicate Framework meets Model Versioning and Deep Metamodelling . Supervisors: Uwe Wolter and Khalid Azim Mughal . Opponents: Reiko Heckel and Einar Broch Johnsen .	2011
Master of Science (M.Sc.) , Dep. of Computer Science, Università degli Studi dell'Aquila, Italy Final grade 110/110 <i>cum laude</i> . Specialised curriculum in software engineering. One-year stay as Erasmus student at the Department of Informatics, University of Bergen, Norway. Subject of the dissertation: Problems of Versioning in Model-Driven Architecture. Supervisor: Alfonso Pierantonio .	2006
Postgraduate Diploma , Dep. of Computer Science, Università degli Studi dell'Aquila, Italy Final grade 30/30 <i>cum laude</i> . Specialised curriculum in web technology.	2005
Bachelor of Science (B.Sc.) , Dep. of Computer Science, Università degli Studi dell'Aquila, Italy Final grade 110/110 <i>cum laude</i> . General curriculum in computer science. Subject of the dissertation: Generation of Data-Intensive Web Applications Based on UML. Supervisor: Alfonso Pierantonio .	2003

Courses

Business Outcome Enablement , Global Knowledge, Oslo, Norway	Jun 2017
Project Management , SINTEF School, Trondheim, Norway	Oct 2014

Research Methodology, SINTEF School, Trondheim, Norway Nov 2013

LASER Summer School on Empirical Software Engineering, Swiss Federal Institute of Technology (ETH), Zürich, Switzerland Sep 2010

Accreditations

AWS Business Professional, AWS Training Online May 2017

AWS Technical Professional, AWS Training Online May 2017

Teaching

Lecturer, Industrial Software Engineering (in Norwegian) Spring 2012
Bachelor course TOE058, Bergen University College

Teaching assistant, Software Security (in English) Fall 2010
Master course INF226, University of Bergen

Teaching assistant, Software Engineering (in Norwegian) Spring 2010
Bachelor course INF112, University of Bergen

Teaching assistant, Software Engineering (in Norwegian) Spring 2009
Bachelor course INF112, University of Bergen

Teaching assistant, Software Security (in English) Fall 2008
Master course INF226, University of Bergen

Teaching assistant, Program Development Methodologies (in Norwegian) Spring 2008
Bachelor course INF101, University of Bergen

Trainer, European Computer Driving Licence (ECDL)-like courses (in Italian) 2004–2005
Computer Usage, File Management, Word Processing, Spreadsheets and Databases

Supervision

Jakob Høgenes, Master student in Engineering Cybernetics, NTNU. Summer internship at SINTEF. 2014

Nikolay Nikolov, International Master student in Service Engineering, Tilburg University, University of Stuttgart, and University of Crete. Master thesis at SINTEF. Subject of the dissertation: Integration and Co-evolution of Domain-Specific Languages in Heterogeneous Technical Spaces. 2014

Tudor Domnita, Bachelor student in Computer Science, Technical University of Cluj-Napoca. Summer internship at SINTEF. 2013

Computer skills

Software engineering: UML, EMF, SDL, Java, Bash, PHP, SQL, HTML, CSS, JavaScript, XML, XSL

System administration: GNU/Linux, macOS, iOS, MySQL, SQLite, Subversion, Git

Desktop publishing: \LaTeX , BibTeX, Microsoft Office, LibreOffice, Adobe Lightroom, Inkscape

Languages

Mother tongue	Italian									
Other languages ¹
